

TRANCE GROOVE

THE JULIEN KASPER BAND

On *Trance Groove*, the third CD from eclectic Boston guitar virtuoso Julien Kasper, as on his previous releases, Julien's guitar is the nuanced, expressive singing voice of this all instrumental disc.

“Exquisite tones, masterful execution, and innate soulfulness drive this jazzy, funky, bluesy, Sco-and-Beck-meet-Hendrix-for-drinks-at-the-Harvard-Psychedelic-Club instrumental joyride.”

— *Guitar Player magazine*, June 2010

“while it's hard to categorize what Kasper does, he's certainly one of the most imaginative composers and players working with the guitar today.”

— *Vintage Guitar magazine*, April 2010

“Kasper's grasp of dynamics and tone as well as his anything-goes approach is in the best tradition of Jeff Beck, while his affinity for the harmonic fringe calls to mind John Scofield.” — *Guitar Edge magazine*, June 2010

“Julien Kasper is a guitar virtuoso whose instrumental excursions find equal footing in both jazz and blues without being bound to either...Kasper wields a master's touch even as he alternates between blazing workouts, sinewy grooves and introspective musings...”

— *M Music & Musicians magazine*, March/April 2010
